

WING

arper

Wing

Wing, a wall-mounted coat hanger, animates a wall with the flow and movement of its gently striated arms that twist and turn to create sculptural like compositions. Together or alone it projects a soft, undulating form, further animated by use, a perfect complement to any space.

Designer

Lievore Altherr Molina, 2013

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.
